

1/2 HP Cast Iron Sump Pump

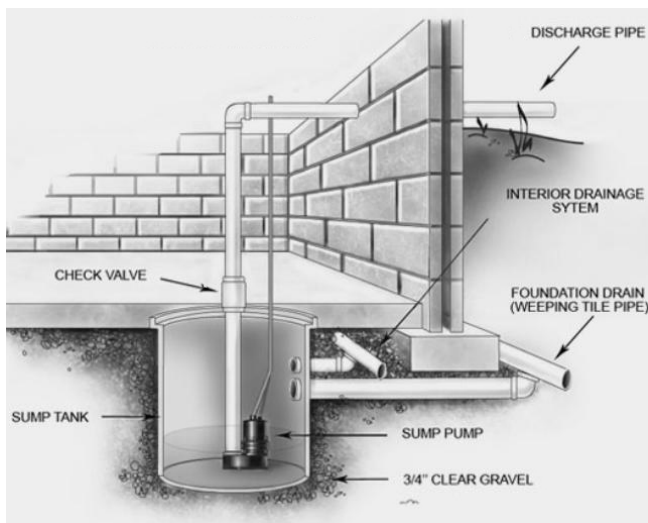

Durable Cast Iron Sump Pump engineered to reliably remove water that has accumulated in a water collecting sump basin in the basement of homes or in a crawlspace. The pump automatically pumps the water that may enter via the perimeter drains of a basement waterproofing system, funnelling into the basin or because of rain or natural ground water, or if the basement is below the water table level.

Automatic “Piggyback” Vertical Float Switch works in basins as small as 10” in diameter and can be disconnected for manual operation .

1 1/2” NPT threaded discharge with
10’ Power Cord

Top inlet design filters debris and eliminates potential clogging

Energy Efficient PSC Motor with automatic thermal overload motor protection.

Performance

Discharge Head	0'	5'	10'	15'	20'	Max. Lift
Gallons / Hour	4780	4280	3600	2610	1020	24'
